

NOTICE TO MARINERS

Isles of Scilly

September – October 2013

Figure. 1: Sea Glider

The instrument moves slowly and undulators up and down through the water column

If discovered before 23rd October, please leave in the water.

The instruments are the property of the National Oceanography Centre and deployed from the Cefas Endeavour.

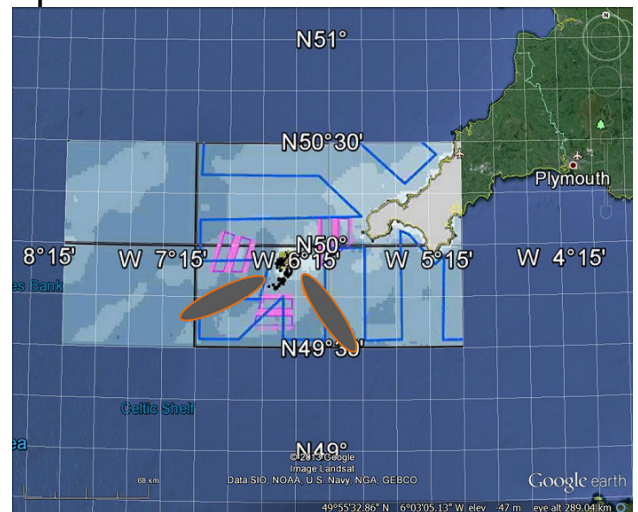

Two underwater gliders for oceanographic research will be operating in two areas around the Scilly Isles.

**Approximate north west extent
50°00'N, 07°30'W**

**Approximate south eastern
extent**

49°30'N; 005°45'W
