ST. MARY'S HARBOUR **LOCAL NOTICES TO MARINERS**

LNtM No. 10/21

Seasonal floating seawater intake, Pelistry Bay

Start date: 1st May 2021

Mariners are advised that the seasonal seawater intake will be installed, as shown in the pictures below, in the vicinity of Pelistry Bay, St Mary's, Isles of Scilly, in position:

49°55'39.6N 006° 16'46.9W

The pipe is of floating construction and is visible along its whole length. The seaward end has a pump attached and is lit with an orange continuous flash every three to four seconds.

For further information please contact South West Water on 01720 424380 or iosfsc@southwestwater.co.uk

LNtM in force: Please cancel all previous LNtMs

All LNtMs are available online at www.stmarys-harbour.co.uk
