TITLE
 Bathymetric & Side Scan Sonar Surveys within the Isles of Scilly
 Passage between St Mary's Roads & Crow Sound (West)

CLIENT
 Duchy of Cornwall — Harbour Authority

PROJECT
 Check Survey

PROJECT No: 1832 **Scale:** 1:5000 **Date:** 10.07.13 **Drawn by:** EFR/1 **Checked by:** EFR/1 **Drawn No:** 01/02 **Scale:** 1:5000 **Date:** 10.07.13 **Drawn by:** EFR/1 **Checked by:** EFR/1

NOTES
 Coordinates in OSN20
 Depths below Chart Datum (CD)
 Tidal data received by RTK DGPS
 Chart datum: 1.0 metres
 Positioning system: RTK GPS (RTK: 40, WGS84)
 CD / ODN value adopted: -2.54 metres
 Statistical sounding within 30 metres radius presented using 100 metres
 RO-BOG ground (with height and orange circle radius)
 Side scan sonar survey line spacing: 15 & 30 metres
 Side scan sonar range: 50 & 75 metres
 Side scan sonar speed: 2.5 knots
 Side scan sonar beam width: 120 degrees
 Side scan sonar resolution: 0.5 metres
 Side scan sonar range: 50 & 75 metres
 Side scan sonar speed: 2.5 knots
 Side scan sonar beam width: 120 degrees
 Side scan sonar resolution: 0.5 metres
